Legacy Era Campaign Guide (Star Wars Roleplaying Game)

Synopsis

Take your adventures into the far future of the Star Wars universe. The Empire rules the galaxy once more, this time under the control of the vile Darth Krayt, and resistance is crushed under the heels of Sith overlords. The Jedi are scattered and devastated, with only a handful remaining to resist the tyranny of the Sith. The Galactic Alliance fleet is but a shadow of its former self, struggling to stay hidden while engaging in hit-and-run attacks against the Empire. This is the Legacy Era, set 130 years after the Battle of Yavin, gives players and Gamemasters the freedom to shape the Star Wars galaxy during an exciting period when no one is safe from evil. Players can join the struggling Galactic Alliance fleet, or fight for Roan Fel's Empire-in-exile. This book contains everything players need to create heroes that fit perfectly into the Legacy Era, while Gamemasters will find the book filled with allies, antagonists, starships, and plot hooks to create exciting adventures against the backdrop of a galaxy ruled by the Sith.

Another fantastic supplement book filled with great new species and classes. A must have for any fan of this system.

Just what I was looking for.

I've seen others mention a lack of Lando legacy however, given the dynamic of the book a creative player and storyteller could come to an agreement to create one. Though, one of the Legacies listed by all available material would not be as listed, viz the Solo Legacy would either be Hapan Royal or

Fel Imperial family, end spoiler. As for the rest the book will need supplemented with at least the core from this producer as your character set-up does run differently from the old West-End Games books, Dark Empire Sourcebook and the System present here are almost in a different language but, with Legacy Era Guide with the supplement of the core book it won't take long to get a good start to a rich character. No faults here from the seller it just seems in need of an update from the publisher to correct.

The writing and ideas seem hasty and slipshod. Not recommended unless you just want a few new ideas. Don't buy it at full price.

This was the last book I needed to complete my saga set, just in time for the new edition- as usual. Though, having looked at the new edition, I still prefer Saga.

I got this hoping to get stats for the Tusken Raider race. There are no stats for the Tusken raider race in this book. Lots of other good stats.

Again, USPS employee left outside my door for it to be stolen and I never got to enjoy it with my gamers.

As with all of the saga edition books this one certainly does not fail to deliver a lot more usable content for the players and Gamemasters.
