Gave copies to my college age son and high school aged niece for Christmas along with some personalized stationery. Probably not what they were hoping for... teehee. But the content is good and the message is clear....SEND A THANK YOU NOTE!! Luckily a few other gifts kept the moment from being awkward.

Great little snippets to start the thank you notes.

This book was everything I expected it to be and was arranged very clearly for all types of occasions. People will like that it is easy to go through and your gift givers will feel appreciated.

I don't know about you, but I write a lot of "thank you" notes and cards (for the most part, it's a lost art). Anyway, this book helps me to convey my exact sentiments for a particular situation. Whether you're thanking someone for a gift or just for saying thanks for a job well done, this book has the words you need.

I love this book! I get it for all of my friends that are getting married.

Shows all types of thank yous and outlines the occasions when you should write a note. Not perfect, but good for a Miss Manners/Emily Post demonstration of the hows and what to include in your thank you notes.

Book is brand new and came within 2 days. Very happy!!
