Peterson Field Guide Coloring Books: Shells (Peterson Field Guide Color-In Books)

Synopsis

Color your own field guide and make nature come alive. Coloring your own field guide, from the peachy white of a Knobby Whelk to the pinkish purple of a Tulip Mussel, is the most enjoyable way to learn about shells. Each drawing is accompanied by a brief description that educates as it entertains. Place the new color stickers next to the drawings for a visual reference while you work. Coloring the drawings helps reinforce the image, shape, and colors of each shell, improving your memory and perception while offering a pleasant and easy way to learn. Fun for adults as well as children, beginning and experienced naturalists alike.

Coloring is fun! It can be even more fun when you're learning something while coloring. Each drawing in this coloring book has a colored sticker to match so that you can place the sticker next to the drawing. While you color, you can refer to the sticker to color each shell realistically. Covering nearly 220 species, this is the most comprehensive shell coloring book available—when it's finished it becomes a field guide you've created yourself, making it truly meaningful and

educational.Â

This coloring book met my expectations and more because in addition to shell pictures to color and stickers to aid in color matching, there is much, much information about the shells included and shells in general. I am very pleased with my purchase and recommend it to those who like a hands-on approach to shells.

this is not for hanging . it is a field guide, more info and small pics. on same pages, no perforations. It is informative and nice for a guide only stickers not colors they should be

This is a wonderful memory tool. I can color with a sticker sample. The pictures are a good size and the print is readable.

Took along to the beach and enjoyed using for identification as well as coloring with grands.

My granddaughter loved this colouring book.

Wonderful. Enjoyed learning from this and so did my kids. :)

Colorful and easy to follow.Educational as well.

Perfect,for education and fun.
