Richard Bullock (Ph.D., University of Virginia) is emeritus professor of English at Wright State

University, where he directed the writing programs for twenty-eight years and designed the

university's writing across the curriculum program and Introduction to College Writing Workshop. In

2012, he was awarded the Trustees' Award for Faculty Excellence, Wright State's highest honor. In

addition to The Norton Field Guide to Writing, he is a coauthor of The Little Seagull

Handbook. Francine Weinberg (M.Ed, Teachers College, Columbia University) is an author and editor who has worked for more than thirty years on college and high school English textbooks. She is the author of the handbook in The Norton Field Guide to Writing and a coauthor of The Little Seagull Handbook.

This was required for a writing class I took this quarter, but has proved useful in several other classes as well. The handbook is very well organized with no fluff or nonsense. Most college writing focuses on MLA style, which this book covers in excellent detail, but occasionally you will be asked to write in a different and unfamiliar style and at that time, this book will come to the rescue. I was able to write a history paper in Chicago style with the help of the Little Seagull. Additionally the book has an online website for reference and further details, with complete sample papers in all the styles, that you can explore in depth. I used the website resource on multiple occasions this last quarter and my papers benefited from the attention to detail on style. Finally, the greatest benefit of the Little Seagull Handbook is that it is in fact, little. It is small, compact and light as a feather, which is a godsend to all of us students who are already carrying around too much weight in our backpacks. Its light enough that I don't mind bringing it around 'just in case' I need it, although I would prefer a kindle edition to reduce the weight even more. Highly recommended!

this is a very useful handbook. everything you need to guide you write a paper in class is in here! try this! you'll love it! even those who hate to write essays will love writing those essays as long as they have this!

Stuck on a thesis statement? This book is a terrific blocker unlocker.

Very useful

perfect conditon

My school requires all English students to have this and for great reason. It explicitly explains paper writing tips, research and organizational help, and citation examples and explanations for MLA, APA, Chicago Style and others. One time when I wasn't using it, my mom used it to help her with an APA style paper for Nurse Practitioner school, while the lady that usually helped her was grieving the passing of her husband, and found it easier to understand than the other lady's face to face

conversations. she asked for this book directly for a gift. Awesomely helpful resource!

I purchased this book for my course, when I received the book it was in very good condition. unfortunately For me i had to return the book because my professor changed our text at the last minute. This company was very helpful through the whole process from the purchase to the return. They were very prompt in answering my emails as well as crediting my account back for the return of the item. I would definitely recommend then and I would use them for my future purchases.

This book was very useful and handy when taking my English writing class. It is full of information to help write it 3 different types of formats, which includes MLA. Very happy and glad I purchased it.
