# Microbiology Experiments: A Health Science Perspective

## **Synopsis**

All experiments are correlated to Nester's Microbiology: A Human Perspective, 8e, but can be used with any non-majors/allied health microbiology textbook.

## **Book Information**

Series: Microbiology

Spiral-bound: 320 pages

Publisher: McGraw-Hill Education; 8 edition (February 9, 2015)

Language: English

ISBN-10: 0077726677

ISBN-13: 978-0077726676

Product Dimensions: 9 x 0.8 x 11 inches

Shipping Weight: 1.6 pounds

Average Customer Review: 3.6 out of 5 stars 10 customer reviews

Best Sellers Rank: #99,271 in Books (See Top 100 in Books) #109 in Books > Science & Math > Biological Sciences > Biology > Molecular Biology #163 in Books > Medical Books > Basic Sciences > Microbiology #610 in Books > Science & Math > Evolution

## **Customer Reviews**

John Kleyn received a Ph.D. in bacteriology from Cornell University and currently acquires books for Indonesian Universities. --This text refers to an out of print or unavailable edition of this title.

The lab book includes information on the type of material you'll work with, but not what to do with it. The instructions contain the bare minimum and is beyond difficult to understand how to perform a test properly without your professor supplementing it with his/her own instructions otherwise, in a subject as finicky as microbio, you'll be screwed unless you enter into the book/class with prior, extensive, knowledge/The only nice thing about the book is that the last few pages are color pictures of test results for you to look at to compare with your own, which is helpful

I used it for my microbiology class. It's good. Learned a lot from it.

Looked rougher than expected

It correlates well with the hardcover book that is used for lectures. I highly recommend schools use

both of these books as a combo deal, they break things down in lame man's terms.

This book does not come with a Connect Plus Access Card as described.

Condition wasn't perfect but definitely as described. Very helpful in class, love using to buy and rent books!

Great

Good
