# Good Intentions (Chaos Of The Covenant Book 6)

## Synopsis

The galaxy is burning, and the Queen of Demons is ready to play with fire. Queenie and the Rejects have found the Covenant, but it isn't anything they thought it would be. Never to be the one to give in, she has a new plan to fight back against Thraven and his armies, one that depends on beating the Nephilim at their own game. She's got the best of motives and the best of intentions, but then again, the road to Hell is littered with both. It's time to go big or go home, and the Rejects don't have a home. They'll just have to kick some ass instead. All hail the Queen! Good Intentions is the sixth novel in the space opera Chaos of the Covenant series: 1. Hell's Rejects 2. Fire and Brimstone 3. The Devils Do 4. Kill the Queen! 5. Damned If You Don't 6. Good Intentions

## Customer Reviews

An excellent series. Non-stop action with great characters and excellent plots while avoiding attempts to impress with techno-babble. Just gets on with the storyline which is very entertaining. Bought the first book to try out the series and immediately bought the following 5 books. Now the wait is one for the next in the series

It just keeps getting deeper and deeper into what makes us all who we are; what we do. We are what we do. Who decides is who rules. It's not their fault about you. It's not their blessing for you. It's you. You rule you. The writer does well in showing this I believe. Rejects. Freejects. Abjects. Just be free and choose yourself to be. It's called being.

The Queen. .... wow, I read lots and have really enjoyed these sets of books.... Keep the Great work going, will be waiting to read the next and sadly the last in this set.... Good job....

Another wonderful exciting addition to this series. The characters are well fleshed out and you really care about them. Lots of unexpected plot twists. Can't wait for the next and final book

Just keeps getting better! Love the story development. Just when things seem to be going well, the story twists into an unexpected spin that kept me at the edge of my seat! Apparently, Shardspace isn't vast enough, the story had to span across the Extant as well! The pace I picking up and I'm looking forward to the final part!

I have thoroughly enjoyed this series so far. This is the second series I have read. Great story line. Great humour. I've enjoyed everything about this. Start from the beginning. You will not be disappointed.

This series is enjoyable and the central characters and their interactions are fun although the storyline isn't moving along particularly quickly and the latest book leans more towards fantasy than science fiction - still enjoying it though.

really enjoyed reading this and I really like the flow of the story and that it is not always predictable.
