Search For The Dead (Relatively Dead Mysteries Book 5)

Synopsis

From New York Times bestselling author Sheila Connolly, Abby Kimball returns with stunning discoveries about her unusual ability to see the dead. Still looking for answers to explain her uncanny ability to see her dead ancestors, Abby shifts her focus to spiritualists, seers, and psychics of all kind. Meeting them with an open mind and a healthy dose of skepticism she wants to know if any of them genuinely share her strange experiences or if they're simply conning gullible people. When she ventures into a series of readings given by area psychics, she makes a startling connection that defies even her wildest expectations. Unsure what to make of the encounter, Abby turns to her boyfriend, Ned, and the two enlist the help of a scientist friend with equipment that can map the mind. Hoping to pinpoint where the source of their ability lies, they agree to be subjects in a one-of-a-kind experiment. But when Abby is strapped into the machine, the readings and their implications are more shocking than either of them could have anticipated. Faced with the new, improbable connection and the possibility that the experiment has changed her life irrevocably, Abby will be forced to reevaluate everything she thought she knew about her ability and herself and answer the daunting question of what she wants next.
