This is a fantastic and fun guide on what to read in the most popular genre categories. It's a few years old now, but still a great resource both for libraries and the general avid book reader. I had so much fun with this guide that I ended up downloading the Kindle version of the Idiot's Guide Ultimate Reading List which is also a few years old. However, there are so many great books I've missed, that it doesn't matter a bit.

Great explanation of various genres and very useful advisory suggestions. The selections have both older and current popular bestsellers and cult favorites. The writing style isn't textbook-dry but is funny and enjoyable to read.

Purchased for a class, will keep as a delightful reference
