The Coming Insurrection

Synopsis

The Coming Insurrection is an eloquent call to arms arising from the recent waves of social contestation in France and Europe. Written by the anonymous Invisible Committee in the vein of Guy Debord • and with comparable elegance • it has been proclaimed a manual for terrorism by the French government (who recently arrested its alleged authors). One of its members more adequately described the group as "the name given to a collective voice bent on denouncing contemporary cynicism and reality." The Coming Insurrection is a strategic prescription for an emergent war-machine to "spread anarchy and live communism." Written in the wake of the riots that erupted throughout the Paris suburbs in the fall of 2005 and presaging more recent riots and general strikes in France and Greece, The Coming Insurrection articulates a rejection of the official Left and its reformist agenda, aligning itself instead with the younger, wilder forms of resistance that have emerged in Europe around recent struggles against immigration control and the "war on terror." Hot-wired to the movement of '77 in Italy, its preferred historical reference point, The Coming Insurrection formulates an ethics that takes as its starting point theft, sabotage, the refusal to work, and the elaboration of collective, self-organized forms-of-life. It is a philosophical statement that addresses the growing number of those • in France, in the United States, and elsewhere • who refuse the idea that theory, politics, and life are separate realms. --This text refers to the Audio CD edition.

Book Information

Audible Audio Edition

Listening Length: 3 hours and 16 minutes

Program Type: Audiobook

Version: Unabridged

Publisher: Brilliance Audio

Audible.com Release Date: May 14, 2010

Customer Reviews

In no way endorse ideas presented herein. Very short and disturbing account of what will befall the civilized world if we continue living with blinders and paying more attention to electronic toys and playing the PC game than continued learning, reading and understanding the political climate.

Great Product / Outstanding Service...thanks

I found it Hard to read but very insightful - know what might happen in the future should history repeat itself

Everything as expected. Fast Shipping!

This is truly a book to get you thinking. Our society needs to reevaluate the role of citizenship and leadership. Exactly what are our leaders doing in their decision making? Is it always in our best interests? Why are there behavioral modificationists in the top strata of our leadership? This book evaluates issues and gets us thinking about our society in a sobering fashion!

The book itself is very intriguing, but the Kindle version is improperly formatted, so that sentences end and begin sporadically. The people who converted this text did not pay close enough attention to the unique page numbering contained in this volume, and as a result, the Kindle version is nearly impossible to read properly.

Honestly, this seemed more like the complaints of the weak-willed and lazy than it did of a manifesto for action which is what I thought it was going to be like. It's short and worth a read if the subject interests you because it offers a very different perspective than most others I've read on politics and "social struggle".

promoted by Glenn Beck relating to talking points he was making at the time. Worth reading for today's world. Get it
