The Hadith (A Taste Of Islam) (Volume 5)

Synopsis

The Hadith The Koran repeatedly commands every Muslim to follow the perfect example of Mohammed's life. His actions and words are called the Sunna. The Sunna is found in the Traditions of Mohammed called the Hadith. A Muslim is far more governed by the Hadith than the Koran. The Hadith give us fascinating accounts about Mohammed. We know what he looked like, his sense of humor, his superstitions and how he ate. Details about his sex life, family life and leadership are all recorded. If only the Koran existed, there could be no Islam. The Koran does not have enough information to practice Islam, but the Hadith has all that is needed to follow the example of Mohammed as a husband, a father, a leader, a warrior and the perfect husband. The Hadith is an easy place to begin learning about Mohammed and Islamic doctrine. This book is a condensation of The Political Traditions of Mohammed

Bill Warner holds a PhD in physics and math, NC State University, 1968. He has been a university professor, businessman, and applied physicist. He was a Member of the Technical Staff in solid-state physics at the Sarnoff Princeton Laboratories in the area of integrated circuit structures. During the energy crisis of the 80's he founded and ran a company that specialized in energy efficient homes. For eight years he was a professor at Tennessee State University in the Engineering School. Dr. Warner has had a life-long interest in religion and its effects on history. He has studied the source texts of the major religions for decades. Even before the destruction of the World Trade Center he had predicted the war between Islam and America. The day after 9/11 he

decided to make the source texts of Islam available for the average person. Dr. Warner's training in scientific theory and mathematics shaped how he analyzed Islamic doctrine. The first step was realizing that the Islamic texts had been made deliberately difficult to read and comprehend. A program, the Trilogy Project (see below), was created to strip away the confusion in the texts. It became clear that Islam is not constructed on the same civilizational principles as the rest of the world. Simple statistical methods revealed that dualism and submission were the foundational principles of Islamic doctrine.

Defined in some way as the 'traditions' of the Islamic religion.....so this is a simplified book which details the two-hundred-odd things that you might want to know. It quotes from the Quran, and lays a number of things out in full detail. If you want to understand Muslims and why things are so screwed up.....this is probably one of the five documents that you might want to read. Takes about a weekend (figure three hours), and it's written clearly. Some might argue that the author doesn't understand the purity of the religion....but the problem lies in the fact that the Quran was written over 1,300 years ago....has a strong leaning toward violence and falls all over itself in continual worries about non-believers. It's like an obsession that just doesn't go away. If you have a desire to grasp the big picture of Islam....this is decent choice for introduction.

I've read a bit on 'islam' since the 'west' has been identified as the mortal enemy of that 'warrior' culture. And this is a good concise insight into some of the basics that drive the obsessive nature found in those faithful.

Great book. Help me to understand Islam so much better. So I won't be deceived by their propaganda.

Appears to be a good English version of the book, I will continue to seek English versions of the three books that outline the violent Islamic Religion of Peace.

very good overview. Presented in very understandable language.

excellent

This is a good reference tool while learning the truth about Islam. It has helped me understand how

things come together and how misled muslims are on the evil ideology they follow. Mohammad was a sick, disgusting pedophile and its good the truth is out there.

This book's accuracy and simplicity is an essential gem for those who need to be accurately and honestly informed.
