The Political Traditions Of Mohammed: The Hadith For The Unbelievers (The Islamic Trilogy Series, Vol. 2)

Synopsis

Mohammed is the perfect pattern of an Islamic sacred life. So Mohammed's political life is the perfect model of Islamic politics. Everything that Islam does or says about the non-Muslim is political. It cannot be religious since the Koran forbids religious activity with the nonbeliever. Over half of the Koran is political and is about the unbelievers, three-quarters of the Sira (the life of Mohammed) is political and nearly a quarter of Mohammed's Traditions (the Hadith) are about Islamic politics. The Traditions contain all of the tactical aspects of jihad. Jihad is neither a blind fury nor a hatred for the non-Muslim, but is a sacred act to prepare the world for Islam. Jihad is demanded for all Muslims and is the sixth pillar of Islam. The Trilogy contains Islam's highly developed political system of slavery. Arabic contains more words for slave than any other language. Read about the political doctrine of slavery that has been practiced for 1400 years and continues today. Islam has a dualistic ethical system. The POLITICAL TRADITIONS OF MOHAMMED contains both sets of ethics-one for the Muslim and one for the unbelievers. You cannot understand Islam without understanding the Hadith. The Hadith has far more influence over the daily actions of a Muslim than the Koran. Read THE POLITICAL TRADITIONS OF MOHAMMED. Know Islam from its source.

Book Information

Paperback: 191 pages

Publisher: Cspi (July 1, 2006)

Bill Warner holds a PhD in physics and math, NC State University, 1968. He has been a university professor, businessman, and applied physicist. He was a Member of the Technical Staff in solid-state physics at the Sarnoff Princeton Laboratories in the area of integrated circuit structures.

During the energy crisis of the 80's he founded and ran a company that specialized in energy efficient homes. For eight years he was a professor at Tennessee State University in the Engineering School. Dr. Warner has had a life-long interest in religion and its effects on history. He has studied the source texts of the major religions for decades. Even before the destruction of the World Trade Center he had predicted the war between Islam and America. The day after 9/11 he decided to make the source texts of Islam available for the average person. Dr. Warner's training in scientific theory and mathematics shaped how he analyzed Islamic doctrine. The first step was realizing that the Islamic texts had been made deliberately difficult to read and comprehend. A program, the Trilogy Project (see below), was created to strip away the confusion in the texts. It became clear that Islam is not constructed on the same civilizational principles as the rest of the world. Simple statistical methods revealed that dualism and submission were the foundational principles of Islamic doctrine.

If you're not a Muslim, then you're a kaffir and Islamic orthodox literature via Mohammed himself teaches that it is not only permitted but also HOLY for Muslims to kill you, enslave you, rape you, steal from you, lie to you, in the name of advancing Islamic rule around the world. Don't believe me? Read it for yourself here.

A look at many of the Hadith that are relevant to us Infidels today. Unlike the other books in the trilogy, this book was surprisingly short. It doesn't even try to cover the whole Hadith, as that would be extremely long and boring. But it does also include a chapter with excerpts taken from the famous book of Sharia Law, Reliance of the Traveler. The Hadith covered are from Sahih Bukhari, and Sahih Muslim, the two most authentic collections of Hadith, according to Islam.

Opens your eyes to what a dire problem Islam is for Western culture. In their view it's a war to the end, with them being victorious. We are in a battle for our very existence.

Every page is an eye opener and you will have hard time putting it down. I found my self saying "Really?" and Really!" a lot when reading this book. A very good book for anyone who wants to know the political laws and structures that Muhammad put forth. Condensed and easy to understand and read. Very comprehensive. It will change your view on Islam and enlighten you concerning how Jihad served as the means by which Islam spread throughout the east. Definitely a must have for anyone studying the truth about Islam.

commentary by bill warner - think him thru also

Must read for non-muslims.

This 179-page paperback, Volume 2 in the ten-book series, fills a gigantic void for any layperson who wants to study the Hadith, also known as the Sunna, in easily readable "newspaper"/middlebrow English, logically, contextually and topically organized. Previously, one could not find such a compilation of verbatim excerpts in one place meant specifically for non-specialists interested in learning about Islam. Most Westerners have no concept of how towering a figure Mohammed is to Muslims. He is in actuality a God-like figure in every way to the vast majority of Muslims -- laity and clergy, Sunni and Shia, highly educated and illiterate -- no matter what Muslim and Western apologists try to tell us. He is the "Seal of the Prophets" and "Allah's Apostle." Along with the Koran, the semi-sacred Hadith sets forth the theology of Islam and the most holy sacrament of Islam, Jihad (holy warfare against the unbelievers), as complemented by the Sira (canonical biographies of Mohammed). The religion of Islam is built like a three-legged stool: it can only be understood by reading all three parts of what the publisher (Center for the Study of Political Islam, CSPI) terms the "Islamic Trilogy" -- The Koran, Hadith and Sira. Muslims like to say that they don't worship Mohammed, so they shouldn't be called Mohammedans. But Lutherans don't worship Martin Luther and Confucians don't worship Confucius. This is but one of endless skirmishes in the civilizational war (this skirmish lost by the PC academics of the West) that has befallen the planet between the "unitary" ethical system underlying the Judeo-Christian values of the West (not to mention the cognate ones of the Dharmic religions) and the "dualistic" situational ethics -- one set of ethics for believers, another for infidels -- of Islam (which means "to submit") and Muslims ("those who have submitted"), who live by Mohammed's example and exposition of how to treat the unbelievers as contained in the Hadith. This work is a true page-turner, riveting as a "holy book" can be. Some of the chapter titles: Ethics - Jihad - The Dhimmi - The Beheading - Slaves - Women - Sex - Apostates - Sharia Law. The book includes a 6-page overview at the beginning, a most enlightening 7-page epilogue, and a one-page bibliography. CSPI used anonymous scholars to translate the Hadith and write the overview and epilogue chapters. That is a sad commentary on the fact of life that any Higher Criticism analysis of the Islamic holy texts is strictly forbidden by almost all Islamic scholars of Islam. Death fatwas (edicts by Islamic authorities) cast a pall over any serious students of Islam who attempt to apply two-hundred-year-old Western scholastic disciplines to bear

upon the holy books of Islam. That is why CSPI has done such a great service to non-believers worldwide in giving hitherto impossible entry into the heart and soul of Islamic theology. This great work of "scholarship for the masses" is a landmark in bringing the tenets of Islam to any Westerner who can read a daily newspaper. Kudos to CSPI for this brilliant little book!

I had no problems with the downloading of this ebook. The book was easy to read, very information on Islam and Mohammed's traditions as it relates to the various trilogy books of Islam. It gives you a good insight into how Muslim's perceive unbelievers and how everything is based mainly on what Mohammed said and did? I highly recommend this to my friends.
