Customer Reviews

The Vedas was transcribed in an extremely easy to read version instead of a harder to read text. I loved this book because all 4 Vedas were included instead of me having to buy 4 separate books!! I will warn the book is large and takes a while to get through but that's because the Vedas are extremely in depth. The book is also very well bound with great text.

This is a dense collection of books that I am not even partially through, but with my limited knowledge of the Vedas they are faithfully translated, and in easy-to-read language.

This is probably the best English translation you'll find for a decent price.

Very detailed text. Great information but it can seem a bit long winded and dull at times. Very concise with some good advice.

for the serious reader of the Vedas.

excellent read, worth the time spent to slowly read through & re-read through true wisdom

Great

Bought this for a 6th grade teacher that I work with. He teaches 5 world religions. He loves it!
