Dolphin (I Can Read Level 3)

Synopsis

This is the story of the first six months in the life of a baby bottle-nosed dolphin. You will see what dolphins eat, and how they protect themselves from sharks, killer whales, and other enemies. Learn about these intelligent mammals who live under the waves.

Age Range: 4 - 8 years

Grade Level: Kindergarten - 3

Customer Reviews

I purchased for my 7 year old grandson who was seriously behind in reading after first grade. Since then, his reading level has increased 2 grade levels. I keep him in books that he would be interested in. He really liked this one.

My daughter checked this out of her school library and then asked for the book for Christmas. The pictures remind me of the kind that most books had in the 70's. Meaning just black, blue and yellow...and of course green when they mix. I never would have picked this out for her but I think it is the story that intrigues her so much. Mothers and their babies are fascinating to little girls. She now knows so much about dolphins from such a simple little book. Glad I had it!

kids love this book-informative

Purchased for my grandson. He liked it.

Great Book!!!

Great Book!

My children love this book, the nursing dolphin images are a favorite among my little ones too. A very cute book and educational as well.

This is a pretty good book, my child learn a lot about Dolphin, but shipping price is too high. Which is ridiculous and we didn't get the book until eight day later.
