I recently used *The Good Life* for my course Philosophy Through Film. I was pleasantly surprised by the development of the students' excitement for and interest in the assigned readings. Throughout the semester the students commented on the helpfulness of the editor's introductions for each reading, and they became increasingly interested in philosophy. The book was a huge success!

--Megan Altman, Florida Gulf Coast University. . . a marvelously wide-ranging selection of philosophers' attempts to define the good life. . . . Making selections for a modest-sized volume on such an issue is a daunting task, requiring negotiating the Scylla of breadth but superficiality and the Charybdis of detail but narrowness. On this score one has to say Guignon has done just about as well as can be done. . . . The editor's introductions to each selection are quite helpful and accurate. . . . [An] excellent anthology that undergraduate philosophy teachers will no doubt find extremely useful in the classroom. --Whitley R. P. Kaufman, *Philosophy in Review*

Charles Guignon is Professor of Philosophy, University of South Florida.

Needed this for my Basic Philosophy class in college. It is full of good, inspiring words of literature. I have never been into Philosophy until this book.

Required textbook for a class.

I use this in a class on happiness. Most of the readings are accessible enough for the novice reader. Historically organized.

Great book and cheap price!

The book was great but the shipping was very late! I had to re-buy the book in my college book store because the book off came to late but as far the book goes it is a great read and I would recommend it even if you're not taking a college course.

Was described as good quality, once it arrived the cover was bent and ripped in multiple places and pages have rips in them.

Received. Thans

For under \$20, you get a book crammed full of interesting and diverse readings. Philosophy has an "old, rich, white man" problem, as the voices in its tradition usually come only from this demographic. But Guignon adds in black philosopher WEB Du Bois and women philosophers Simone de Beauvoir and Nel Noddings. In addition, there are both analytic philosophers (like Bertrand Russell) and continental philosophers (like Nietzsche and Sartre). The readings are broad and engaging, and even though some of them are dense, Guignon's introductions to a superb job of hitting the major ideas. I couldn't be more pleased with an anthology. It'd be a great adoption for an introduction to philosophy course or courses on the good life, happiness, or the meaning of life.
