Superhero Detective For Hire: Superhero Detective Series, Book One

Synopsis

Look, I get it: I'm not your typical superhero. I don't leap tall buildings, I'm not a billionaire playboy, and I didn't get bitten by a radioactive spider. Plus, I don't wear tights. Where the heck would I keep my gun? But don't get it twisted: I, private detective Truman Lord, am still very much a superhero. If my gun doesn't get you, my powers surely will. I'm thinking about using that as my catchphrase. Don't try to steal it. I copyright my stuff. When Eileen hired me to stop a former lover from blackmailing her, I thought it would be a simple matter of using sweet reason to persuade him to stop. I call my right fist "Sweet"; my left one is "Reason." But, when people started turning up dead and supervillains came out of the woodwork, I was soon investigating a murder case where I was the next target. Someone wanted me dead. I hoped to foil their objective. "Foil" is superhero and detective-speak for "punch them in the face." I really liked the writing style. In the first couple of chapters (chapter 1 especially) I thought the hero was serious when describing his own wonderfulness. But as the book progressed, it became obvious that the hero was being both ironic and funny. LOVED Truman!! I hope to use his technique of talking positively about himself my own self. Daily affirmations on steroids! I also hope to become less annoyed with people who were obviously in a bad mood when they read the book. Just call me Truman the Tolerant.Brash Mister Brasher, love your work. Stay positive!!

Well done novel with a twist on the superhero thing. I liked it. Nice choice of car for the main character, too.

Reminiscent of the earliest 'Elvis Cole' novels: funny, fresh, superhero with a conscience. But without the gritty noir feel. Liked both books in this series and waiting for next installment.

Not good at reviews because every one likes what they like. The premis was fun the story moved well after seeing some movies spoofing action heros I thought this might be a fun read and it was. This is not The Avenger's or Iron Man

I will buy the other 2 books soon :)

I always enjoy the books by this author and this one is no different. It is definitely one you should check out.

A very good read, looking forward to reading the second of the series. I have read Caped as well and enjoyed it just as much.

A good superhero romp.Slightly marred by my superpower derived from reading books of the said the genre waaay too much and knowing almost instantly who the villain is.But all in all enjoyable read and worth the asking price.
