Ghostface Killer

Synopsis

Once, I was nothing. Hungry, abandoned, wandering, and alone. An adolescent street rat fighting for crumbs. Then a chance encounter changed my entire world. A man in an expensive suit asked me how much my life was worth. I didn't have an answer, because I didn't know. He asked if I thought it was worth killing for. Impulsively, I said yes... He found me, then fostered me, and in the interim turned me into a killing machine. A modern day La Femme Nikita. Now, I only have one mission. To avenge the death of the man who saved me. There's an invisible war on the streets. Us against them. Family against family. Power against power. They call me Ghostface Killer because they never see me coming. I understand the weight of that danger. The hazard. The jeopardy. Because now here I stand, three months pregnant with the barrel of a gun pressed to my head cause I never saw him coming... GFK is a romantic suspense with dark elements. Reader discretion is advised.

This book keeps you guessing til the very end! Everything about this book was just epic! I will not give anything away.. But if your like me you need to know just a few tidbits before your soldNo cheatingThis is a baby book..And most importantly no main deaths.. I hate those!Angsty.. Title: Ghostface KillerAuthor: M NeverDesignation: Full-Length Standalone Dark Romantic Thriller, NO CliffhangerReading Platform: Kindle EditionMy Rating: Five Divinely Entertaining Stars*****Where do I even begin? It's seldom I find myself at a loss for words but this story truly took my breath away and left me totally speechless. M Never was a new-to-me author so I did my usual due diligence and carefully read the blurb, some of the reviews as well as the free sample on . I decided it would be a fairly good read so I made my purchase and dove in. I thought I had a general idea of what to expect. I was wrong. It was nothing like I assumed and have never been more delighted. This wasn't a good read... It was FABULOUS! I adore psychological thrillers, love spine-tingling suspense, and hopelessly addicted to dark romance, but give me the perfect combination of all three and I'm in heaven! And that's exactly what M Never delivered! OMG! Be still my Heart! It was absolute perfection! So let's talk details!Ghostface Killer is a fast-paced, exceptionally well crafted, full-length standalone suspenseful dark romantic thriller and unlike anything I've read in quite a while. The narrative is beautifully written in the first person with a single perspective from Stephanie 'Stevie' James. I'd like to go on record by saying I generally prefer my books to have dual his and her perspectives and quite often find the story tedious with only one point of view. But this story is so skillfully written, I hardly noticed and was anything but bored. Fascinated, intrigued, riveted - definitely! Bored... No! The dialogue is smart, snappy, seductive, well executed and flows effortlessly. The story is imaginative, unique, and easy to follow but it's the cast of complex, well-developed characters who truly steal the show. They literally explode from the pages, grab your attention, capture your heart, and hold you prisoner from the first page till the last. They were quite possibly the most engaging characters of any book I've read this year. The entire ensemble of characters literally blew me away. I was completely captivated and immediately drawn into the story by the beautiful assassin Stephanie 'Stevie' James.

Never really shook things up and put her own special spin on this riveting tale of intrigue by giving us a badass antihero with a tortured, heartbreaking past, but rather than the usual male assassin, it's a young woman! Yup, you read that correctly! But Never doesn't stop there. She also gives her readers Benjamin "Baz" Sabatino, a charming, seemingly wholesome, yet enigmatic male protagonist who is also panty-melting hot! Swoon! Stevie and Baz complement each other perfectly. The attraction between these two unlikely lovers is immediate, their interaction electric, their passion undeniable and their sexual chemistry is so hot it sizzles. Meow! I thought my Kindle was going to spontaneously combust and me right along with it! Swoon - AGAIN! But brace yourself, my lovelies, because that's not all! Never ups the ante and kicks up the heat with not one, not two, but a plethora of plot twists that you will never see coming! Dear lawd! I thought I was going to have a heart attack! No spoilers from me but I will say this: A beautiful badass young assassin with a tragic past who has never known love until now-check! A handsome, charming young man who could be more than he seems but is targeted to be her next victim-check! Danger, drama, suspense, secrets, lies, deceit, betrayal, abuse, and plot twists galore-double check! Heart-wrenching angst, dreamy romance, and steamy sex-OMG YES! That and a whole lot more! Did I like this book? No, I LOVED it! Would I recommend it? You bet and I am but only for adult readers since it does contain violence, graphic language, and explicit sex, some of which is nonconsensual. If you're sensitive to rape, this is a book you may want to skip but please know the rape does not involve the male protagonist. Will I read this author again? Abso-freaking-lutely! This may have been my first time reading this author's work, but it certainly won't be my last! Was I entertained? Completely! I was glued to my seat, riveted to my ereader with my heart fluttering wildly in my chest as the time flew as quickly as the pages. I couldn't turn the pages fast enough. My poor Kindle was smoking and it wasn't just from the speed I was turning the pages. Yeah, the sex scenes were that hot! Fabulous entertainment and an awesome read!

WHOA !!!Just ... whoa!One of THEE best novels I have read in a while. Seriously !!!The writing, the characters, the story, the plot. Everything about this novel was amazing. I cringed, I cried, I smiled, I swooned, I rejoiced, I gasped. I went through every emotion possible for this book and when it ended I was left wanting more.Bonnie and Clyde have NOTHING on Stevie and Baz. I refuse to give the story away but be prepared for an emotional rollercoaster ride when reading.Stevie is my hero and Baz stole my heart with his imperfections. That scene at the cabin with the gun broke me completely. The epilogue in his POV was exactly what I needed to complete such an extraordinary

story. I do wish the ending with Benny could have been expanded on more. After all, the plot revolved around everything he put into motion. 10 stars if I could give it.

I really enjoyed this book. I've only read 1 other M Never book (ages ago and it needs to be re-read), so basically this was a new author read for me. I was NOT disappointed. First, the cover. HOT. I love a good cover. The book is noted as a "romantic suspense with dark elements." GFK is exactly that. There's romance, hot hot romance. There's suspense, twists, and turns that I didn't see coming. There's a little dark. I love dark reads, so this was ok for me. There was action! I love good action scenes in romantic suspense books. GFK reads like an action movie, so it was fun. Stevie is an assassin. A kick-A, bad-A girl?! YES, PLEASE! She was trained to be a killer, she was trained to be invisible, she was trained to be a Ghost. She was given a life by a bad man after living on the streets as a young teen. She was trained to get in and out of places and carry out her orders. Baz is our male lead. No spoilers, so please read to find out how he's in Stevie's life. Very very good read. Looking forward to reading more from M Never.

I have heard people use the expression book hangover but until today, I have never felt it before. Loved books yes, but never had this feeling. Until this book. Book hangover. Really. OMG. I don't read many books that really surprise me. Most of the time, you can kinda figure out some plot details. Not this one. Plot twists, steamy sex, love, mystery, and great writing are part of this book. Stand alone. It is a dark romance. Don't miss out!
