This beloved book is a great handbook of remembrance. So many people have contacted me and wondered how I knew "their" story and were surprised that there were others who felt the same sense of isolation and aloneness. "We gather our reawakened memories as if pearls strung together on a cord, endeavoring to recreate our necklace of remembrance. " "The Star-Borne" evokes a profound healing for those who have wondered why and how they ended up on planet Earth. It explains the choices we have made to come here and helps us know that we are not alone. This book also helps us get in touch with the vastness of our celestial being, what used to be called our Higher Self. It takes us through our initial descent into matter and shows us what we have come here to achieve. "The Star-Borne" is full of information which is not available elsewhere. It speaks of matters which are lodged deep within our cellular memories, but have been erased over time from our conscious memories. And it serves a powerful catalyst to bring those memories forward, to embrace our full vastness. After we have done that, then we can realize that Home is here. We have never left. And there is nothing to return to except for the fullness of our core beings. A few years ago, I greatly revised this book which is now in its seventh edition. It has been a bestseller for many years and will continue to help us on our accelerated journey into the Greater Reality.

Beloved Star-Borne Ones, Now is the time to remember....By our seeing of the Unseen, By our listening to the fullness of Silence, By our merging with our Angelic Presence, We open ourselves to the multi-dimensional Frequencies emanating from On High. Each of us who has touched the stars Becomes a lantern which illuminates All with starry light....This is an accelerated path homeward Which leads to the New Octave Of the Greater Reality.

Reading the Starborne was like having my life validated...For so many years I felt so alone as if there was nobody else who could understand the seemingly strange occurrences in my life. Always dismissed as having an over active imagination, I felt isolated and completely misunderstood. But reading Solara's words brought tears to my eyes in the realization that I in fact am NOT alone and that there are many who experience the same things. If you feel you come from another dimension, you'll find great comfort in this book. Its truly Spirit on paper.

A very refreshing book, so interesting and easy to read, so full of "a-hah" moments! I highly recommend the book for those seeking to expand their inner world of self-discovery. Happy voyage!

He has an opinion that I respect

inspirational

When my husband and I began to read this book, written so long ago we were stunned. I do believe that this information is more pertinent than ever.

Hard to read! Very hard to get into not an enjoyable read. Not sure if the spiritually guided have to be so flighty?

in good condition

I was reading this book one night, with an open mind but no real belief. I got the part where Solara explains the steps to go through to get your Angelic Name. Right. So I start going through the steps in my head, up to the point where she says you then hear and feel your name. My body shook and tingled, I heard a voice saying my Angelic Name! I s*** you not!So....I'm sitting there, still shaking

ten minutes later when my wife walks through the door and stops dead, staring at me. She says "Why is there a sparkle all around you."Ok.Solara comes to Australia a few months later and I take a clairvoyant friend to see her free introductory talk. Doesn't everyone have a clairvoyant friend?I ask my friend what does she think. She says to me"Her aura is gold and goes from there ", (she points to one side of the wide hall) " to there" (she points to the other side).So I went to the weekend seminar and had my whole reality changed.If you are drawn to read this book, it's the real deal. I highly recommend it.
