Night Light (The Restoration Series Book 2)

Synopsis

Survival has become a lifestyle, and technology is a thing of the past as the Branning family learns that the power outage is worldwide. Everyone is desperate. When two young thieves break into the Brannings' home and clean out the food in their pantry, Jeff Branning tracks them to a filthy apartment and discovers a family of children living alone, stealing to stay alive. Where is their mother? The search for answers uncovers a trail of desperation and murder . . . and for the Brannings, a powerful new purpose that can transform their entire community—and above all, themselves. But how will they do what's right when so much is going wrong? New York Times's bestselling suspense author Terri Blackstock weaves a masterful what-if novel in which global catastrophe reveals the darkness in human hearts—and lights the way to restoration for a self-centered world. "Blackstock is absolutely masterful at bringing spiritual dilemmas to the surface and allowing readers to wrestle with them alongside her characters." • "RT Book Reviews, 4.5 stars (of Dawn's Light)

Customer Reviews

I had picked up the first book (and the third and fourth) in this series at a garage sale. I like that the book holds my interest and intrigues me to continue reading. The background work that Terri did helps the book seem like it could actually happen and brings life to the story. I do like the integration of characters both believers and non-believers. There is a time coming when this kind of chaos will be more reality than fictional, whether or not it will be caused by an EMP. The series reminds me much of the end days that John has written about. It is a good series to read, there are also group discussions at the end of each book that can be used if you read them for a group.

I really enjoyed reading about the trials of this family! From what I have read in the past, this could really happen in our lifetime, from something man made or God made, like a comet! I love the spiritual parts as much as anything else in this story! Thank you & I look forward to the next book too! Terri is one of my favorite writers!

I love how Terri Blackstock always keeps her stories "real world." The events of this particular series, The Restoration Series, could actually happen in our world today. It gave me pause to think about how to prepare for a similar calamity and how I would protect my family if such cataclysmic events took place. The characters are people that you would know in your own life (with a few interesting exceptions) and they deal with problems, threats, joys and concerns the way any of us would. This book has enough suspense to be a real page turner and yet breathes enough to allow for authentic character development. It will be hard to put this book down, and at the end, you are anxious to grab the next book in the series and dive in! I highly recommend this author and series.

Scary to think these things could actually happen. Makes me want to be a prepper. Author came up with a unique story line.

I hate the pain and sufferings trials bring. Terri Blackstock, hit the nail on the head when she spoke of God allowing us to be dragged through the, pain, suffering, and may I add, sorrow, and agony. God is always with his child when he allows trials. He walks with us. He never leaves us. He never forsakes us. I never thought of him dragging us or pulling us through. I can relate to that, and add, "oft times kicking and screaming"! Great series! Definitely, true to life circumstances. And, infinite

thought provoking messages to anyone who would see them. As soon as I finish this review, I plan to pickup the third book, and get right on with the story!!!!Deborah Wheeler

Great Read. Liked it !!!

This is the second in the Restoration series. I loved book #1 and this one is equally as good. I love the members of the Branning family and how,as,a Christian family in a time of crisis pulled together while displaying the honesty of their flaws and imperfect natures. No electricity, nothing at all electrical works. No banks so no money. Average people learning to survive by digging wells for water, growing and hunting food. Crime abounds but Grace abounds much more A great read.

I like this series
