Korean Crisis

Synopsis

North Korea developed a plan how to strike America with nuclear weapons. They plan their attack for July 4th. They know they have a limited number of weapons and the ones they have small yields. They plan to strike four cities, cities which will do the most damage to America. After the attack, America planned to strike back, they were warned by China and Russia they wouldn't accept America's mass nuclear strike on North Korea, they are afraid of fallout drifting across their countries. China proposes a ground attack to capture the North Korean leader and then put him on trial for crimes against humanity. Three teams of special forces, one from China, one from Russia and one from America plan to grab Kim. In America, the nuclear fallout is drifting across wide areas of the country. Most people weren't prepared for the fallout, the casualties from the attack and the fallout are horrible. Korean Crisis is a realistic story of North Korea could strike America and the repercussions.

Customer Reviews

I now understand why the North Koreans hate us. We were as brutal to them as they were to us. And they need the anger to stay in power.

Good read but it was a long stretch for what you think NK can do.

Ira has done it again. Beginning with his 2015 American Civil War series he has the unique ability to blend current events and speculation to achieve a believable novel. It's a must read as is his initial series

Author has a lot of imagination. However he does not develop his characters nor give them physical descriptions. If he added these to his vivid imagination it would make for some really good reading.

Bad copywriting. Fun book and easy to follow.

The overall story line and plot are relatively decent. 4 stars for the yarn. Writing skills of this author appear to be at about the 5th grade level. Character dialog is stilted and unbelievable. It's kinda doubtful that this guy ever had a rigorous education by 1950-60 era nuns. 1 star for that. Crummy editing, misspelled words, incorrect words that were inserted by auto-fill, sentence fragments and what have you: 2 stars. Military realism, knowledge of weapons, procedures, etc. Maybe 3 stars. Calling the National Weather Service the National Weather Bureau is absolutely unforgivable in my eyes. 1 star. Pro-Trump, conservative-biased political punditry to the verge of comic book level propaganda should earn this one star. However, the part where Trump actually reads his intelligence briefing made me laugh so hard that I nearly wet myself inclines me to bump it up to 2 stars. Also noticing that the 5 pre-existing 5-star ratings are not verified purchasers causes me to believe that they are paid bots and I am the first and only authentic reviewer of this book so far: 1 Star Overall score: meh. I'll give you a very generous two stars.

Ok folks, if you want a story that pulls you in, wraps you up, and is almost scary close.... This is for you! I was asked to beta read this, as I often do for various authors, and gladly accepted the invitation. I will not tell you that My taste is like Yours, but I am fairly good at picking books apart. I absolutely enjoyed this one, I hung on every word and had a hard time putting this down to go to sleep! Want something enthralling, something to raise that resting heart rate, something to make one wonder if it is reality? BUY THIS BOOK!!!

Due to the timing of our issues with North Korea, it read like the author was in a big hurry to get to

print; failing to have the story properly edited. But, it only takes a pin-prick to pop a balloon, and a nuclear pin can make a pretty big pop. We are surely not above being pricked. A story like this reminds me of how vulnerable we really are, and that is why I put my faith in God, and not man. The story makes you think: I believe that is a good thing.
