Excellent!

Love this book and it's my go to for Mammillaria. My paperback edition was coming apart and I was lucky enough to come across this one in excellent condition. Recommend.

Good book.

Good book to identify cactus with but has no growing tips. If you grow cactus, this book should be in your library.

Love it!!!!

It is a beautifully illustrated book about 'globe shaped' cactus - but those only - None of the other shapes are included.

Very good advice with excellent illustrations.

Great aid for any cactus grower.
