# Nursing Care Of Children & Adolescents With Cancer (3rd Edition)

## Synopsis

APON's definitive work on the supportive care of children and adolescents with cancer provides an up-to-date, chapter-by-chapter assessment of common and rare diseases and their treatments. Important information on adolescents is now interspersed throughout the new edition, highlighting crucial differences in the care provided to this special population. New case studies with portraits of the patient have been included in each disease chapter to keep the focus on personalized care of the child. This new edition also includes Internet resources, a research mega-table listing three decades-worth of nursing studies in pediatric oncology, completely updated pharmacology tables, and new chapters on Surgery, Oncological Emergencies, Complementary and Alternative Therapies, Home Care, Palliative Care, Research, and Ethical Issues

## Customer Reviews

Association of Pediatric Oncology Nurses -- Edited by Genevieve Foley, Dianne Fochtman, Christina Baggott and Katherine Patterson Kelly

Informative but didn't realize it was so old

Very in-depth information, especially on specific diseases (the beginning of each chapter gives a case study). More comprehensive than APON's core curriculum. Not a whole lot of info on specific chemo drugs (side effects, administration), just a chart. A must have for peds oncology.
