Best Sellers Rank: #248,054 in Books (See Top 100 in Books) #48 in Books > Teens > Education & Reference > Science & Technology > Chemistry #67 in Books > Science & Math > Chemistry > Analytic #939 in Books > Science & Math > Chemistry > General & Reference

Customer Reviews

McGraw-Hill authors represent the leading experts in their fields and are dedicated to improving the lives, careers, and interests of readers worldwide

I purchased this to assist my son for studying high school chemistry; however, the problem solving manual is a better resource and this book is a discussion in its study of the textbook.

I really like this study guide, and I think it's helpful practice-- especially for some of the more difficult aspects of Chemistry.

The book did not have a solution key, now we don't know if the answers are correct or not. The book by itself is very good.

Book received in excellent condition and in timely manner. I would recommend using this site to other parents buying textbooks.
