Gurp's Fantasy: The Magical World Of Yrth

Synopsis

Welcome to the world of Yrth, a wondrous place populated by mysterious monsters and magical races - and by people snatched from our Earth by the cataclysmic Banestorm! Whole villages were transported - from such diverse locales as medieval England, France, Germany and the Far East. Yrth is a world of cultural conflict, where the Crusades aren't ancient history - they're current events!

Welcome to the world of Yrth, a wondrous place populated by mysterious monsters and magical races - and by people snatched from our Earth by the cataclysmic Banestorm! Whole villages were transported - from such diverse locales as medieval England, France, Germany and the Far East. Yrth is a world of cultural conflict, where the Crusades aren't ancient history - they're current events!

This is one of the best GURPS books written. If you need to get a grasp on the fantasy world of Yrth, this book has it all!

Don't be fooled by the generic title, GURPS Fantasy is a world book. There is very little (only two small chapters) in the way of general rules about fantasy in the book. The rest is history, geography, and politics of the world of Yrth, written specifically for a Game Master. It works best if you let the players roam where they will, and use the book's info to be prepared for what they encounter. I really like the world itself, it's richly laid out and realistic; close enough to Middle Earth to be familiar to players, but different enough to keep them on their toes. However, such a detailed world is of little

use in a hack-and-slash campaign. For generic fantasy, use GURPS Magic, GURPS Fantasy Folk, and/or your own imagination.

GURPS Fantasy is an excellent campaign world. It combines an intriguing map of history and events and allows for all sorts of styles and diversity. Players like GURPS Fantasy for its originality and many playable races and character types and GM's like it for the detail. Or at least my players and I do. Unlike the opinions presented in other reviews I think that GURPS Fantasy is great because of its rich detail and the sheer fact that history is mapped out for you can make easier to determine the consequences of changing history, were players to timeport of play in the past.

GURPS Fantasy is good place to start a campaign, if the GM lacks the time or talent to build a world from scratch. There's enough detail to provide a lot of room for campaigns with a lot of different 'flavors'. The background material can be used to generate adventure seeds, and make the world seem more "real" to the players. For those that don't want a generic "high fantasy" setting, this might not work. It does have some nice twists - like Goblins being a viable character race, not a "cannon fodder" monster.

I found this too be a mundane Deryni inspired world. Sometimes a bit to meandering on the details. AND long winded on all the history. Where is the missing history lines if you wanted to play that out with your group? Not here!....This is laid out in exacting detail
