Customer Reviews

This book supplements the GURPS Traveller system by describing the history, organization and tools of the mercenary's trade. Written by two veteran Traveller authors, the attention to detail is refreshing in a gaming supplement. The mercenary's life is thoroughly described in the main text and typical of the GURPS products, spiced up with lots of interesting snippets on the sidebars. New templates and new equipment will be of interest to players keen on dishing out (as mentioned in the preface) "Grade-A violence to all comers". The only (minor) fault I could find is that the sample characters are not particularly inspiring. The original Mercenary book was arguably the most exciting of the supplements published by the now-closed Game Designers Workshop when I first started playing Traveller. This new version for GURPS Traveller is even better. Easily the first supplement I would get for the GURPS Traveller system.
