Shock Wave

Synopsis

A hundred and forty years after a British ship wrecks on the way to an Australian penal colony and the survivors discover diamonds on the tropical island where they wash up, Maeve Fletcher, one of their descendants, is stranded on an island in Antarctica with a party of passengers after their cruise ship seemingly abandons them. Dirk Pitt, on an expedition to find the source of a deadly plague that is killing dolphins and seals in the Weddell Sea, finds Maeve and the passengers and rescues them from death. When Pitt later uncovers the cause of the plague, he discovers that Maeve's father, Arthur Dorsett, and her two sisters are responsible because of their diamond-mining technology. A deadly race develops to stop Dorsett from continuing his murderous mining operations and to head off a disaster that will kill millions. Pitt's struggle to foil Dorsett's ruthless plan to destroy the market for diamonds and thus gain a monopoly of his own takes him from harrowing adventures off the west coast of Canada to being cast adrift in the Tasman Sea.

Great story. Characters well developed. Story line excellent. Dirk Pitt at his best. Giordano too. Love interest as heroic as Pitt.

Love the tie in from the past. Started reading his works after watching the movie " Sahara ". Would like to read it too but only the Spanish version is available on Kindle right now.

This was one of my favorite books by Clive Cussler. It was very hard to put this book down and after I finished, I wanted it to go on! Very great book.

Speaking for my buddy in Tasmania, AU who received this book and stayed up late to read it. I'm reading it also and enjoy all of Clive's books.

If you haven't read a Cussler, you are missing it.

As usual a great book. One of my favorite authors.

I read Cussler ALL the time.....action, suspense, more action and always a new idea...I don't know where he comes up with the story lines but I love them....I love all the research he puts in to make his novels realistic.

Clive Cussler is a great author.
