Customer Reviews

This book was such an easy read. I love kindle books like this that teach me a lot for a great price. What drew me to this book was the fact that it wasn't just information about memory but that it actually included exercises. I actually did the exercises. They were fun and really think they worked. I'm happy I bought this book and it really delivered in terms of value for money and I'll be reading it again in the future!

This was a good, quick read with logical suggestions and reasons why they work. It's definitely worth the time to read.

Good book if you face memory problems! I am using those techniques and until now my memory is overclocked! I feel such I was not working before that! I would recommend it to read especially if you forget things!

Don't waste your money.. This doesn't do anything for your memory

I keep forgetting I have this.

Excellent thank you

Great book
