Dermatology For The Small Animal Practitioner (Made Easy Series)

Synopsis

Dermatology MES is a readily usable reference for veterinary dermatology. This title provides practical guidelines for the diagnosis and treatment of the skin diseases commonly seen in a practice. The organization consistently progresses from a detailed description of all diagnostic tests and procedures, to clinical evaluation of the test results, and presentation of treatment options. Leading questions are used throughout, to focus the user on important diagnostic and therapeutic considerations. All applicable drugs are discussed and dosages provided. This text features 115 four-color illustrations for easy identification, clear step-by-step descriptions of diagnostic test and lots of tables that allow for quick access to information. The highly visual format makes this text an effective client education resource. This fast and easy to use reference guide provides an excellent, in-depth and concise survey of dermatologic diseases, diagnoses, and therapies.

Customer Reviews

Thoracic Radiology offers a practical approach to general film interpretation and a prioritized approach to differential diagnoses in particular. --Teton NewMedia, Editorial Review, September 2000

Dr. O'Brien is a member of the American College of Veterinary Radiologists and is Clinical Associate Professor of Radiology and Chief of Staff of Small Animal Services in the School of Veterinary Medicine at the University of Wisconsin, Madison.

Bought this to use for my continuing education class I took! Very informative with lots of pictures to help! Would recommend this to other Veterinary Technicians!

Fantastic little reference, short and to the point. Great pictures, will definitely be considering getting the other volumes in the series.
