Gematria was so very important as mankind took its first baby steps and we all need to take a look back into this. The holy language carried much more than just instruction and information. It's more than just words. It's a treasure chest of hidden wisdom. if you desire insight into this hidden wisdom, then this book is a great start and can help you with your own spiritual writing!

It's going to make a great reference! Lots of work was done in this one. Excellent!

The explanations use technical terms from Hebrew. I do not recommend it for laymen.

GOOD QUICK SOURCE IN GRAMMATRA STUDY NOT COMPLETE BUT A GOOD AID

Loved the cover artwork. Can't wait to get into the book. It will be one of the more difficult reads.

This is a must have for all BOTA members, especially Associate members. Really anyone into

Hermetic style Qabalah. I don't know what the beef between FLO and BOTA is but Case is mentioned on every page so he dose get his due. Thelemites as well would benefit to have this as a shelf lurker, this thing makes Sepher Sepheroth look like a child's toy by comparison. This book is a constant companion and Mr. Colman deserves thanks.

Unless you're into New Age nonsense, don't bother with this one.

How do you misspell the word "Thelema" in Greek? Seriously, Every Thelemite that buys this book is going to instinctively look up the number 93, then BAM! "Thelma". I'm sure its just a typo, but come on... Oh well, hopefully it will get fixed in later editions. At least it was on p.156 (BABALON)!Anyways, decent book to eventually pick up, though I'd try to get it used as both volumes are a little pricey (Which I suppose is just the cost of publishing these days).
