Customer Reviews

This is the handiest guide. I live in a condo community in Florida, where many people not familiar with the local snakes, promote killing any they see. I keep this with me as much as possible to educate others. Love that it can be around water without being ruined. It arrived in a timely manner and meets my needs.

Husband wanted this to keep in his truck glove box as he is out on nuisance calls every day, folds up like a laminated map.

A colorful, information, picture-packed fold-out showing Florida snakes. Should make an excellent field identity guide.
