## Customer Reviews

This is a difficult review to write as my copy is on my Kindle Reader and you write the review within that book -- so referring back and forth is difficult and time consuming. This is the first book I bought by this author. I was so impressed I got quite a few of her other books on animals on Kindle. Most are excellent. Who is the book for? Hard to say. If your child goes to the zoo and loves animals or loves Monkeys etc then a younger child may well find it fascinating. My view is that an older child, or young teen should enjoy it as will adults who need to brush up on their knowledge in this area. The book is very comprehensive I think there are some 13 sections then some extra photos at the end. Each section is 4-5 pages and has very helpful text and small photos. The photos upscale on my iPad Kindle reader and are very

I bought this for my grand-daughter to read on my Kindle after a trip to the National Zoo. She enjoyed it so much she didn't want to put it down!
