This book uses a lot of real information from the period. Being interested in real religious studies, I can vouch that many of the religious heresies listed were historically real. I own some of the religious texts this book makes reference to. Its grasp of the gnostic movements and their many Dark Ages spawns is amazing. The Merits/Flaws and fictional heresies in this book are equally excellent. This book adds a mature, dark feel for an already bleak game. It is one of the best mood books ever released under the White Wolf/Black Dog title.
