## Customer Reviews

warning! Cannot use with Android tablets even though you have Kindle Reader installed! So ticked. Also would like to add you cannot follow the charts and headings as they are formatted in this Kindle edition, the headings are way off, don't match the page height. should have put each chart on a separate page so can view the headings, I am talking about the "grid" set up and menomics.

No where near enough information. Not very helpful. Need to include NANDAs and an index in the kindle version. Disappointed.

Seems easy enough to figure out, organized and helpful information. Let's see if I pass the CPNE by using this! I'll add more to this after I test, if I ever get a date!

excellent resource

Sheri Taylor truly is the care plan queen. She has made this aspect of nursing education a more palatable experience. No longer intimidated! Highly recommended!

If you have never written a care plan this book is very straight forward on how to do it. Excellent resource for anyone taking the CPNE through Excelsior College.

OUTDATED! DONT BUY! ETHICALLY IT SHOULD BE REMOVED AND NOT SOLD TO FOLKS AT THIS POINT

Easily worth 10x what is being charged. Sheri is there for you every step of the way. I'm testing in a week and this book was worth the read, Even this late in the game. Get the kindle app for any device and get this book. Thanks Sheri.
