Exalted Terrestrial Directions 4*OP

Synopsis

A Guide to Creation's South From its fecund coasts to its hellish interior, the South is a land of startling contrasts. There exist in the direction cities dating back to the First Age ruled by desert nomads, fiercely independent tribesmen suffering under the yoke of Realm colonialism, an organization of fire elementals defying the bureaucracy of Heaven to safeguard its tenets and many other contradictions as well. Will the region's many differences plunge it into conflict during this Time of Tumult, or will the returned Lawgivers succeed in bringing the South's many constituents into a lasting accord? A setting book for Exalted Second Edition, featuring:

- The fourth of five Terrestrial Direction books devoted to fleshing out the bare bones of Creation presented in the Exalted core book, this one devoted to the South
- Mass combat stats for the forces of Chiaroscuro, Gem and other Southern powers, as well as dominion stats for the Mandate of Heaven
- Traits for the South's native gods and beasts

This is an extremely worthy companion to the information presented in the Exalted Second Edition core book. I liked the format, which takes the reader through the main points of interest one by one with a new city presented in each chapter. The chapter on antagonists contains a dozen or so usable baddies to throw into any game set in the South (Loved Cathak Lazera). I can't wait to crack open the other Terrestrial Compass books. The illustrations are great, as they are in all Exalted books. Too bad they can't be in color, but it makes the book less expensive if it's black and white. So you take what you can get. My only complaint would be that a lot of smaller cities and other

geographical landmarks don't get a ton of attention. But the book can only cover so much in a hundred or so pages. All in all, a good buy for Exalted fans, especially ones who love desert settings.

This book solidly covers all the major places and cultures of the South. Giving you in depth information on everything from the city of glass, to Gem and its rulers and merchant class. The chapter on Paragon goes into to specific details on the city and the Perfect that have been hard to find elsewhere. Additionally the bestiary includes some new creatures and 2ed stats for the furnace rhino and the eight tailed molehound.
