New Horizons (Emerilia Book 4)

Synopsis

Alliances and enemies are made, but the Stone Raiders keep their promise. They swore to themselves they would bring the Aleph back to Emerilia. Secrets, powerful creatures and a hidden civilization wait for the Stone Raiders in the abandoned Aleph facilities and cities. Will they be able to clear the Aleph facilities and complete their quest? Or will they be fated to fail? One thing is for sure, the Stone Raiders won't give up easily.

Customer Reviews

A good book with a massive raid right in the middle. This book is setting the plans and staging for the next couple of books, especially the coming demon conflict. Looking forward to the decimation that will occur to the Dark Lord, mwahahahaha. It's good to see the characters living up to their beliefs and improving the world around them. Definitely a few POE's getting their noses out of joint with the Stone Raiders, and some background political chicanery going on, that I can see being squashed quickly and violently after it annoys the guild too much. Really looking forward to the next books.

Give me more!! OK seriously great book to a extremely interesting world. Great character

development. Lots of different intertwining storylines. Just a great read. Also as much as I want to scream faster the author has been putting out stories at an amazing rate. A must read if you like LitRPG and sci/fy. Very well done combination with the story in a sword and sorcery realm.

I love this series and this book moved it along. This was a short book however. There was basically only 1.5 major fights in the book. I count the spider fight as half because they retreated and suffocated them with a trick. He also really only made 2 things and it didn't feel like there was as much building as the other books. More building and development would be fun.

Michael has really come of age with his writing style since his first book in the FF series. With this series he has created a world and a story which draws you in and holds you there. It doesn't take it's self to seriously, and has a great mix of action and humour. Am eagerly anticipating the next one in the series.

Another great read from Mr. Chatfeild, who is now one of my favorite authors. His writing is well done, with great editing, amazingly well thought out plots, sub-plots, and tons of well rounded, 3 dimensional characters and supporting characters. I cannot see any real difference between his writing and a story from the NYT top 10 best sellers.

First of all, I enjoyed the story. Good flow, good development, right in line with the other books of this series. Snort, snorting, snorted... The author, in my opinion, needs some variation from those descriptions of people's actions. There's enough of that happening, snorting that is, that it distracts me from what's happening.

Book 4. I am happy that the story keeps moving along while keeping the humor, camaraderie, and character development from the first three books. I liked it and will read the next one when it comes out.

More undead! Plus the addition of giant spiders! More fights for the stone raiders. David finally starts leveling up, he just needs to watch out for those pesky walls.
