Customer Reviews

This is the third in the "Hunt for Reacher" series of novellas by Diane Capri. FBI agents Kim Otto

and Carlos Gaspar are still trying to find information on former Army MP Major Jack Reacher. They come tantalizingly close to meeting Reacher himself.

Audiences will continue to enjoy the suspense filled story of two FBI agents attempting to build a file on a ghost. Not literally a ghost, but a man who can't be found usually until he has already been there or people warning them off of their attempt to find Reacher. Now Otto and Gaspar are on the road going to locate those who knew Reacher when he was an MP in the army. However, when they get to a small town they come upon what at first looks like a fatal car accident. They pull aside to see if it is Reacher under cover on the road, but what they discover has deeper ramifications along with a nationwide manhunt as they weren't aware of being off the grid themselves. Many questions remain as to who Reacher is, who wants them to build the file about the man and why. Along with what will happen to the agents should they continue on their task no one is supposed to know they are on, but somehow do! Keep reading the novels and short stories to enjoy the mystery, suspense and characters in the Hunt for Reacher Series!

This is the third in this series I have purchased only to find the "short story" is really just a few chapters in what, I hope, is a complete book. My problem is I will probably pay a fortune to see the book to it's completion.

Diane Capri is an awful writer. She has single handedly ruined the Reacher series. Not only has she screwed up the Reacher background she is a lousy writer to begin with. I am alvoss05 at Yahoo.

I just felt that it left too many questions unanswered - mainly, how did they come to have video of the car with the child in it on the highway where Reacher was trying to get a ride, inside the car to know how hard it was for Reacher to get himself out of the car, etc. I love the Reacher series, but not so sure about these. Thanks!

The story was ok. It could have been developed better but instead it seemed somewhat contrived and stilted. More like what it really is, a temptation to read the next story.

The reason that I only give this one star is because this book and the first 2 should have been one book .. There is no reason except for money that these books are so spread out. You just start getting interested in the book and it ends and you have to buy the next one to see if anything at all

happens in it, which nothing did happen in book 2. I'm very disappointed in these books

Too short of a read. Liked the book reading all of them same theme different story line.
