Customer Reviews

I've been an avid reader of post apocalyptic novels for a while now...and this one is worth the read. And truth be told it's fairly believable that a situation similar to this could actually happen. I am eagerly awaiting the second book in the series. Buy it, read it, you will enjoy the story!

WOW!!! What a read, It will draw you into a plausible situation. There is a car accident, Lexi watches their dad die, but not before he gives her important instruction to follow with her brother Travis. The adventure begins for them as they begin walking down the highway with their Dad's BOB and a map.

Highway has been on my TBR for a while, and I finally had a few evenings free to devour this fantastic book by Michael Banner from start to finish. Before I was a writer, I was a reader and big fan of prepper fiction. I am thrilled with the writing in Highway. Realistic scenarios, characters that are relatable, and a wealth of preparedness information are awaiting you in Highway. You won't be disappointed.

Outstanding! I loved this book. Very fast paced. The characters were well developed and I honestly felt like I reading about people I knew. The story was very plausible. I do enjoy teowawki fiction but this book was more than that. I cannot wait for the next installment. It's funny how we can get so engrossed in our day to day lives that we lose site what's right in front of us.

Excellent, best book I have read in a while and I read a lot! Very well written and Banner's talent to tell an intriguing story is obvious. The depth of the characters draws you in and the story line is so believable, with all the twisted political and terrorist plots almost makes you think he has an inside source. Love all the descriptive weapons and tactical references. Even for a novice I can tell he has

done his research!. This is a book I couldn't put down and I ran around telling friends and family about the book, so they are now reading it. I can't wait for the next book in the series.

This book is well worth a read. I couldn't put it down as it held me the whole way through. A good length book which gave you time to get into the great story line & get to know the characters. Not full of violence like many of the apocalyptic books so anyone can read it if you are interested in this genre. Will definitely be reading the next in the series.

Was surprised how quickly I was drawn in. Perhaps having worked in Iran and the middle East for the better part of a decade made it easy to appreciate the accuracy of the mind set. Looking forward to starting the second book as soon as possible.

I loved this book from the first page, and it never had a dull moment. I found I couldn't put it down for long. The book is action packed but it has enough surprises to keep you awake, and love and many things to search you soul about. I found a truth about America the people, we need to be alert and more self reliant, we are so spoiled this could indeed happen.
