Diseases And Disorders Of The Horse - Paperback Version, 1e

Synopsis

Now in paperback, *Diseases and Disorders of the Horse* provides equine practitioners with the most comprehensive information available on the clinical diagnosis and management of their patients. This beautifully illustrated work combines the highest quality full-color photography with an extremely user-friendly format. Tables and appendices enhance the differential diagnosis material, with treatment strategies given for every disorder listed. The unique combination of practical advice and evidence-based research help ensure greater clinical accuracy. The book is an essential tool, not only for the equine practitioner, but final year vet students, veterinary nurses, technicians, breeders, owners, and trainers. Describes a wide variety of diseases and disorders commonly seen in equine veterinary practice. Over 1,000 illustrations of characteristic clinical signs facilitate rapid and accurate diagnosis. International sourcing of material has allowed the inclusion of many geographically specific conditions. Includes neonatal and developmental problems.

Customer Reviews

"The book provides a good source of relevant information, easily assimilated, thanks to the quality of text and illustrations and the overall design. It should grace every practice bookshelf and be there for the veterinarian to consult when faced with the intellectual challenge and sinking feeling that accompanies the thought 'I haven't quite seen this before.' The text is succinct, it describes the clinical appearance of the conditions shown in the photographs and gives lists of differential diagnoses. This combination of the initial clinical presentation with images obtained during further

diagnostic investigation, surgery or pathology gives an insight comparable to seeing the patient, far better than can be obtained through text alone." Marion McCullagh, Veterinary Times, July 2004

Teresa Hopper, CPhT, Program Director, Western Career School, Sacramento, CA; Laura McBride, CPhT, Program Director, Western Career School, Sacramento, CA; and Karen Snipe
