TOP SECRET - Silent Weapons For Quiet Wars: An Introductory Programing Manual

Synopsis

Here is the infamous (and anonymous) conspiracy manual for the total control of worldwide society. It describes a plan and method of a "Quiet War" to be carried out by an "elite" group, which goes unnamed. If you are not part of that elite group, you are not held in very high regard. In fact, you are only regarded as livestock, to be manipulated for the benefit of the elites. This document has been referenced by many including David Icke in his various books and videos. Is it real? Does it actually lay out a plan which is even now being "silently" implemented? The answer lies in examining what it purports, and comparing it to events that have happened since the 1950s. You decide. "Silent Weapons for Quiet Wars, An Introduction Programming Manual" was uncovered quite by accident on July 7, 1986 when an employee of Boeing Aircraft Co. purchased a surplus IBM copier for scrap parts at a sale, and discovered inside details of a plan, hatched in the embryonic days of the "Cold War" which called for control of the masses through manipulation of banking, media, industry, peoples' pastimes, education and political leanings. It called for a quiet revolution, diverting the public's attention from what is really going on. It contains no author name, and is not under copyright. This illustrated eBook edition of the 1979 original has been carefully edited for scanning and spelling errors, and is as true to the original as possible. [EDB Pubs]

Book Information

File Size: 581 KB

Print Length: 87 pages

Publication Date: October 2, 2014

Sold by: Digital Services LLC

Language: English

ASIN: B00O561XG0

Text-to-Speech: Enabled

Customer Reviews

Not very detailed writing. The news supports what has already come out in other writings. Being Anonymous doesn't add further credence. Book seems to "drop off" mid stream - feels a bit out dated.
