Customer Reviews

Thomas Marent started photographing natural history subjects, particularly birds and butterflies, in the mountains of his native Switzerland, and has dedicated nearly half of his life to recording wildlife across five continents. He is the author of DK's *Rainforest* and *Butterfly*. --This text refers to an alternate Hardcover edition.

This book is absolutely incredible. I think it has text, but I can't remember - I always get distracted by the amazing photographs. I got this book for my frog obsessed son, but it would be an amazing gift for photography buffs, artists, and animal lovers alike. This is a huge book with page after page of full color photos of every kind of frog you can imagine. I can not say enough about how beautiful this book is. Well worth the price for anyone with even a slight interest in the subject.

We not only love Frogs, we actually have 3 live (Whites Tree) Frogs at home. Beautiful creatures and the book is simply amazing with excellent quality and a huge variety of Frogs features.

Stunning beautiful!

Maybe I missed that it was coming from an old library, but the stickers on the spine do nothing positive for the astethics of my book shelf :(. The book itself has beautiful pics.

If you like frogs, you will love this beautiful book and its wonderful photographs. Even if you don't like frogs, you will still love this beautiful book and its wonderful photographs. Not only is it a lush and wonderful study in and of itself, it provides an excellent lesson to photographers and artists of just how much can be done with a (possibly) limited subject. Buy one for yourself and extras to give to family and friends.

I bought this book for my daughter. She had seen it in a gift shop while on vacation and I can tell you has much better prices than gift shops. My daughter is a veterinarian for a zoo and when I asked she gives a thumbs up to both the pictures and text. I believe that after throughly reading and viewing the book it will be a reference guide on her bookshelf at the zoo.

This is my second book I have purchased from Marent (first was "Rainforest") and it does not disappoint! Photos are absolutely STUNNING - very high quality, rich colors. It makes you want to rip out each page and display them on your walls. The editorial is not overwhelming, but just enough to be informative. I like that Marent writes so personally and honestly about his experiences. I recommend this to anyone who loves frogs, nature and travel.

Amazing. text a little childish
