Customer Reviews

If you are picky, wait for the end of the next editing. It is needed, because some places the names are switched, the grammar is poor and it can drive anyone crazy. If you loved Hui Yue's story, than you will love this one too. You need to buy. To be honest, i was waiting something darker at the end, but it was still good. Even better, because not every part has to end dramatically.

I really liked this book can't wait to see where the next book takes the story I will definitely read the next book

I really love the creativity of this author, every book brings new surprises. Many of the interactions between the characters are extremely simple but the books are just very enjoyable and fun to read. Also, like another poster said: She is a machine.

this one had too much fillers doing on it lack some of the feeling of the story

Great world building, continued character growth and a different kind of fantasy can't wait for the next one. If you are a grammar nerd move along there's nothing to see here. But if you love a good story and new genre. Start with book 1

Awesome! Just like the rest of the series.

i was doubtful when i started the series but once i got started i read like the entire series (that's out right now) in 5 days! rllly amazing and comes out fast too! ill buy the next one for sure! keep it up!

Very good series, tends to repeat in consecutive paragraphs about feelings or why someone feels a way, otherwise great! Keep up good work!
