Fortress Falling (Moon Brothers WWII Adventure Series Book 2)

Synopsis

France, October 1944: Fort Driant may be a 19th century anachronism, but it proves itself an impregnable obstacle to Patton's forces as they fight to seize the city of Metz, a gateway to Germany. Another fortressâ "a Flying Fortressâ "may be the key to the fall of Fort Driant. The Moon brothers are in the thick of the battle as Tommy volunteers for Operation Aphrodite, a gambit that turns unmanned heavy bombers into radio-controlled flying bombs of enormous power. But as zero hour for Aphrodite approaches, his brother Sean is trapped in the tunnels of Fort Driant, with the Germans just inches away behind armored doors. It's a race against time for the GIs to take Driantâ "or escape before the Flying Fortress falls.

Customer Reviews

Grasso's second book featuring the Moon brothers pilot/tanker duo is even better than his first. It points out the ugliness, confusion and horror of war; and portrays the hubris of generals, and the sacrifice of the down-rank combatants. It's an excellent read that is hard to put down.

Good light reading with the Moon brothers and Silvie. A little far fetched on the remote controlled business but fun. I didn't know about the fortifications mentioned in the book.

.. but an exiting story , well written ! Hope for Moon brothers Volume 3 !!!!

The "heroes" are a little too cookie cutter, the plot a little thin, but it's OK for a summer read.

Mr. Stiles has a very interesting writing style. He did however keep my interest through the entire book. I would read his books again.

Very good read, needs editing.

Another great read. Please continue to keep us in suspenders. The moon brothers adventures provide a unique look at how it must have been

Good read liked it
