The Book Of Shadows: Red White And Black Magic Spells

Synopsis

I compiled this Book of Shadows from a collection of spells I have been using since I started down my path. This book contains over 100 spells and a list of runes and how they can be used in spell casting and even crafting your own spells. I've collected these spells from several different sources, mostly from witches I have met in my travels and covens I have been a part of. The White magick spells in this book can mostly be used without much hesitation but make sure you have good reason to use any red or black magick spells as The Three-fold law does apply to everyone whether you believe it or not. I've tweaked a few of these spells to fit my needs from time to time and you can do the same as the words aren't what give the spells power, your energy is what really matters, so feel free to do the same and change what you want to suit your own needs. The craft of Magic is a constant fluctuating living thing and our ancestors have borrowed, changed, and made from scratch what we practice today. I hope this book helps you grow as a person and a spellcrafter :)-Brittany Nightshade

Customer Reviews

Excellent

Nice little book,. The spells do not require a lot of hard to find or expensive herbs, etc..Easy to read and understand. Author explains details of the spells and warning prior to performing some of them. I'm not interested in the love related spells, as I was taught not to do them 30 years ago, as it is controlling someone elses desires, but it's a matter of preference and your own tradition. I purchase a lot of Craft books, as I follow the TBWC tradition, and find that this is one of the few keepers that I've purchased over the last 53 years. The last chapter has information that is very rarely found in any book--and very well written. Absolutely love this book! Thank you, Nightshade, for sharing this info with the rest of us.

I'm not a fluffy-bunny Witch by any means, and I can appreciate shadow work and the darker aspects of the Craft. Reading through the spells in this book, however, calls to mind one or two of the "satanic witchcraft" books I picked up when I first started on the path over 25 years ago (wow, saying that puts a lot of things into perspective!!). I suppose there is the difference between Magick and Witchcraft...or perhaps Witchcraft and Paganism...whatever the name, each individual can decide on their own label, but I'm talking about "directing energy to an end result" versus "spiritual/religious worship". And sadly, I would not recommend this book for either purpose, but perhaps not for the usual reasons one might assume. Magick is as much about the practitioner's mindset as it is about the desired outcome, and it truly saddens me to see spells like these being perpetuated in today's society that is already riddled with hate, bullying, exclusion and nastiness in general. A death spell??? Really??? I'm a vegetarian...I couldn't even imagine putting out a death spell on another person - and not because I'm afraid of a threefold law or some kind of karmic retribution. If a person can put out enough energy via a spell, how much hate and poison is festering in their own heart to create the energy needed to make that magick? Yes, bad things happen and bad people exist...sometimes we have control over that/them, and sometimes we feel like victims. But as difficult as it is (and I know, trust me), changing our own hearts and attitudes and worrying about ourselves and our reactions first is the answer. That old clich d line is true: "Be the change you want to see in the world." Isn't there enough malice and manipulation out there already?I gave it two stars only because I admire Brittany Nightshade for getting her work in print and for putting in a disclaimer that one must be careful when working with Black Magick (didn't catch the "how" part though...umm, DON'T do it in the first place maybe?) I respect her right to put these spells and the

ideas they reinforce out there...but I would be unhappy if one of my kids wanted to use this book. There are far better spells out there.

I got this book yesterday and as an eclectic Pagan for over ten years, I love it. It's full of all kinds of spells, ranging from healing and protection spells, to potions and love charms, to curses and binding spells, to poppet magick (voodoo dolls). Awesome!

Very informative! I'm a beginner and I've read other books but one of my older mentors in the craft recommended this book and a few others.

Pretty well written book. The spells are interesting and fun to go through. I'm pretty new to the world of spellcrafting, and I found this to be simple to grasp. There were a few I was familiar with from my studies, but also plenty of content that was new to me. I like some of the modifications the author has made to some of the more common spells. I feel more energy using these versions than I did with the original incantations. Overall, a great read to add to your collection as you grow in your knowledge of the arts.

I ordered this book as it catch my interest and I wasn't disappointed when it came to the content. Although, I must say that there are some spelling mistakes inside the book and and may not look as great as expected. Personally, I didn't particularly liked the font in which everything was written and chosen but for a light reading and quick look into the topic of the different types of magic was fun. I found it mostly enjoying to learn the different type of Runes and what they meant and also the differences between Red, White and Black Magic.

This book has 70ish love spells, 16 curses and or hexes including a straight up Death Spell, and no mentions of the law of threes. Frankly these book constraints on binding and harm and is not a book that will make its way on to my book shelf.
