Best Sellers Rank: #926,593 in Books (See Top 100 in Books) #58 in Books > Medical Books > Medicine > Internal Medicine > Pediatrics > Emergencies

Customer Reviews

Broselow - Broselow Pediatric Emergency Tape

Just what I was looking for

A must have for anyone who provides pediatric care. The tape was shipped quickly. The tape is in good shape and luckily I always have a weight on my patients, but the reference is very helpful.

I love to carry this with me as a new Paramedic!

This tape is just like what we have on the Pediatric Crash Cart. It's nice to have my own copy as multiple people need to simultaneously use the information it includes- especially since it's a good idea to double-check everything when working with Peds (or any patient, really).

A great resource to have on hand when dealing with sick pediatric patients as well as when setting up for procedural sedation.

I am a Full time RN and also work with a local volunteer EMS service as a paramedic. Given the low volume of Ped calls we run on this tape takes most of the guess work out of medication dosing, fluid

rates, and just about every thing else. This should be on every truck and in every ER!

Extremely useful. This is just what you want for those late night ambulance calls when you're having trouble calculating the pedi drug doses that you haven't reviewed recently .

Very useful. Helpful. Love it.
