## Synopsis

In 1918, Winkler explodes from a community of 13 helpful souls to a crowded coal mining town of strangers with divided loyalties. War in faraway Europe means more money in the pockets of May Rose and her friends, but as a new wife and mother she feels cut off from people and community events. And though mine owners like her husband are making money hand over fist, the workers' poverty and resentment threaten trouble when the war ends. Before that happens, the town will be struck by an epidemic, and May Rose and the women who've helped each other through desperate times will face challenges as divisive and deadly as war.

## Customer Reviews

this story continues the series that tales the about the trials and hardships women in particular but people in general faced in the mountains of West Virginia in the early 19th century. it is a great series and well worth the time. it is great for any person but especially for women of all ages to read so they will learn that they can do anything they want in life if they never give up, believe in

themselves and stand firm. The entire series should be required reading in middle school for girls .  
Excellent series and a great book. well worth the read.

When I read the first book in this series - The Girl On The Mountain - I wasn't sure if I would like it. But then I got hooked on the characters. I could almost envision myself in that era. Each person in the book has their own unique story and I love how their lives all intertwined. So it was no surprise that I had to read the rest of the books, ending with The Women's War. Excellent reading. I would definitely recommend this book and the entire series.

I purchased all 4 books in the series and proceeded to read them all. The only sad part is when the last book ended. These books are written in such a way that it makes you feel you are a part of the characters in each book. Carol Ervin, please keep the series alive going a few years from book 3, "The Women's War". And thank you for the great read!

This series is excellent. In this book, it shows the courage of the women and their determination to change their lives. I love this series.

I loved the entire series!

Great Series - Love all of them and learned from all of them

I was recently introduced to Carol Ervin's novels. Loved the Mountain Women series. Ervin has such a unique style of writing that kept me reading all 4 novels in the series in a few days Very realistic characters both admirable and not so admirable whose sorrows and joys moved me to tears. I look forward to reading more of Ervin's novels.

Enjoyed it very much
