Strike Vector - An Aeon 14 Space Opera Adventure (Perilous Alliance Book 2)

Synopsis

Everyone with the power to protect Kylie is already after her...Kylie Rhoads risked life and limb to rescue a girl, thrusting the Dauntless and its crew in the middle of an interstellar tug of war. Now, running from Silstrand Alliance, the Gedri Freedom Federation, and The Black Crow, Kylie fights against the very thing she set out to save. Advanced nano-technology is slowly changing her body and rewriting her brain--a process she may not survive. The nanotech is priceless, and some people--maybe even some in her crew--would kill to sell her out. But before Kylie goes down in a blaze of glory, she'll risk it all one more time to do the one thing she promised to do: Find Nadine and free her from the bounty hunter who's holding her prisoner. What Kylie doesn't know is that she has more enemies than she ever imagined, and their number is growing daily. Every one of them will do whatever it takes to ensure the others don't gain her advanced nanotech. Even if it means all out war.

Customer Reviews

I enjoyed the book. After I finish this series I will probably not purchase another one written this author as I do not like books with unfinished endings. Both books by this author had very unsatisfying endings. I will only be buying the next book because I want to see how it will tie into the Orion War series. It is a well written and interesting story, but at the end left me with an unfinished feeling I did not like.

M D Cooper has shown himself an amazing author and this book more proof! The adventure follows Kylie Rhoads and her crew as they are thrust in to the middle of a sinister plot that spans multiple organizations. All Kylie wants is to get her crew back and be left alone but fate, and more than a few other people, have other ideas. This story is fast paced with more than a few twists that you don't see coming. This book is a wonder addition to the Aeon14 universe by someone I think is a master storyteller!

So many secrets are appearing!! Everything is not as it seems. The next one is going to be a doozy!!

In this the 2nd adventure from our crew of the Dauntless we learn even more from the political upheaval as forces start drawing together into a collision course. Relationships are strained even further and are forever changed in this exciting adventure. Best read as the 2nd book although there is enough hints and clues given to the reader to understand what's happening. If you're a fan of sci-fi then this is a must read especially if you're already a Aeon 14 follower, if you're new then you will be. The pace is quite fast and there is lots of action, adventure and plot twists to keep you on your toes. This book was given in exchange for an honest review and as such is my own opinion.

This series is like the con man playing the scam game on the corner with guessing which shell has the pea under it. The authors keep you guessing, then just as it reaches a finale, it leaves you ready for the next book. Sure glad these are on Kindle Unlimited or I'd go broke.
