Kid's Favorite and Full of Activities!! October 2,

2014-----My son loves to spend his lazy evenings by doing something interesting like coloring pictures or discovering mazes on his activity book.

While I was searching for children's activity books on the Kindle store, this book title grabbed my attention; moreover its cover page design is "Cute & Cuddly" indeed. Pictures are clear and subjects of coloring are rich in educational value also. My son's most favourite part is its "Activity worksheets", which are accomplished with unique ideas. Overall, this activity book is a source of unlimited fun. Activity worksheets as well as coloring pages are easy to use. And also helps to accelerate my kid's intelligence level. My kid is so happy getting such a wonderful gift from me.

Hello everyone! It is such a delight to read your reviews and emails, and to know that my work is reaching a lot of homes in different places that I've never been to. Your support inspires me to write more books and fables, to be more imaginative, and to continue with my passion. I am in deep gratitude and will forever be thankful to all of you. With this, I would like to encourage you to share your experiences with your children while enjoying my books. You can send pictures you took like your child imitating the characters or the book arriving at your doorstep.Â Looking forward to hearing from you :))info@idanboaz.co.il

The pictures are terrific with details that children will find something to enjoy- be it animals, international landmarks, or fun activities. My personal favorite were the elephants balancing on balls in front of the Statue of Liberty while my daughter loved the cowboy bears by the roller coasters. There are always new details to find and something to enjoy. I liked how the coloring illustrations are used again in the activity section. My 6-year old had fun going through the whole book.

What a neat coloring/activity format! I love how it can be enjoyed with both traditional elements as well as advanced technology aspects as well. My grandchildren will love this, and they can all enjoy it together for different reasons. My little ones will have fun coloring their pictures to match the illustrations, and the older kids will enjoy the activities. One of them will probably decide to both draw a copy of the colored illustration and then color her copied version. I am going to save this for them to enjoy when we travel for ThanksgivingÃ¢ÂÂthis with an iPad or tablet, crayons, colored pencils, and blank paper will make for a pleasant trip I do believe!

very boring, does not hold child's interest .

My sons, although they're already almost 7 and 8 yrs old, still love to do colors and whenever they see books, they immediately get their crayons ready and color every page they see. I thought I'd get them a new coloring book that they won't just color, but a book from where they can learn a lot more. So this time, I got them Idan Boaz's Juggling and Acrobatic Stunts: Coloring & Activity Book because this one not only offers kids the chance to learn about juggling and other balance sports. This book also contains images of the famous landmarks all around the world, from Paris with love, to the Leaning Tower of Pisa, to the Statue of Liberty and even amusements parks and under the sea! Very informative and creative indeed! We love the animal pictures as well. As always, my kids are happy with the bonus treats in the coloring book, because there were also some activities that help them think and maneuver. I really like how my kids interact with each other better because of what they learn and see on the book. Kudos to Idan Boaz for a job well done!
