Varg Vikernes is a game designer (MYFAROG), author (Sorcery and Religion in Ancient Scandinavia, Reflections on European Polytheism and Mythology) and musician (Burzum).

This is the largest MYFAROG supplement to date. It's chuck full of new monsters and beasts for your games as well as new NPC's. I use this book for each game I prep for MYFAROG. Once I determine where the encounters are going to be, I use the stats in this book for quick and easy reference. Once you get this book, you'll never need to roll up an NPC again. You have more than enough NPC's for your world at your fingertips. Another great thing about this supplement is the new travelling and encounter tables in the back. You'll find updates to the travelling rules from your v2.5. These rules add more realism to your game and (in my opinion) make it much more fun overall. Do yourself a favor and purchase this book. If you play MYFAROG, this book is a must have!

Great supplement to MYFAROG.

This is a pretty standard Monster Manual, but I thought there could have been more pulled from Norse Mythology and from the real world animal kingdom of Northern Europe and the Arctic religions. My greatest surprise was the lack of stats for whales.

Great resource for a myth master especially on the go or when a player has my copy of the base book.

I'm a big time gamer... my favorites include Donald Trump the board game, Men are from Mars, Women are from Venus, and Caitlyn Jenner's Operation... but lately this Swedish Metalhead guy has been pumping out garbage left and right... anywho MYFAROG is the most boring board game ever.. more like BORED GAME! (LOL GET IT?) Anywho.. I suggest you spend your free time playing something productive such as Caitlyn Jenner's Operation which can help you with a future career in healthcare and transgender studies.
