Customer Reviews

This text was a great resource. The reason for the low rating is that the book literally fell apart. With the first use I had pages falling out. I needed this book for the semester, so a return was not possible. I find it unfortunate that when you spend good money on a textbook that it falls apart. I am hoping that the pages will not get lost for future use.

I really love this book; however, it is VERY POOR QUALITY. Turning a single page causes chunks of the text to fall out. I am planning to write the seller and ask for a refund. I cannot return this text right now, because I need for a class and it's extremely disappointing.

Updated:. Sent book back and received a new one in great condition. Content is very good.
Recommend this book!

The pages are falling out in chunks. The binding is not holding this book together. It makes it difficult to study as I am afraid my pages are going to end up all over!

The content of this book is great, but the book itself is literally falling apart in my lap! This is a brand new textbook and the middle pages are all falling out!

The pages to this book are falling apart. Not a good buy.
