Lippincott Video Series For Nursing Assistants: Student DVD

Synopsis

This dual-layer DVD shows complete demonstrations of more than 30 key nursing assisting skills and procedures. In addition to teaching step-by-step technical skills, and in keeping with the focus of Lippincott Textbook for Nursing Assistants, Second Edition and Lippincott Essentials for Nursing Assistants, the videos promote qualities such as compassion and empathy, and demonstrate non-technical skills such as respecting the individual, caring for people with dementia, coping with death and dying, and entry into the workforce. The dual-layer DVD will play on a computer or a DVD player, and will allow students to review key skills at their leisure.

Customer Reviews

Was very helpful in getting my STNA. I needed to watch some of the demonstrations over and over since I felt in class we just didn't get the time to practice the skills, and I did pass the state test in Ohio just fine. I'd sure use it for review if I had to. I've ended up caring for my own mother with a caregiver contract and have not had to find a job outside of this and will be retiring this next year. But I'm still glad I purchased this.
