## Customer Reviews

Love the size of this. Fits well in your pocket. All of the pages can be wiped clean, which is also a bonus. I like the content, but also wish there were a few more things/some things taken away. But I'm sure it varies with each individual depending on your location and what you encounter. Overall, I would recommend this to everyone!

All my lpn note books were exactly what I ordered. The customer service from was so helpful. Just

to be sure, I called and they guided me through it the ordering process. I got my order on a timely manner as promised. The book is the best thing ever .. it is a fun small size book that has the same information as a big book . I love it . I loves this little note book, it has all the basics right at you finger tips as a great resource. You can wipe it down with out harm the pages for they are water proof. It fits perfectly in your pocket.

Helpful tool for clinical without the hassle of bringing the hefty textbook.

I use this in my clinicals and it has everything that I need to know right at the tip of my fingers! It's great! Best part is, it is so easy to carry.
